

CKD Smart Showroom & Factory Tour

This photo is for illustrative purposes.

◆CKD Corporation

We are a company that contributes to global manufacturing in both Automatic Machinery and Components. Be one of the first to visit our new showroom, which opened in January 2024 at our Headquarters/Komaki Plant. Visitors can experience CKD's manufacturing from the basics of pneumatics, fluid control, and electric motion components to software-based applications. You will also be able to see the actual operation of a pharmaceutical packaging unit, one of our Automated Machinery systems.
